

## English

### Poetry / Haikus

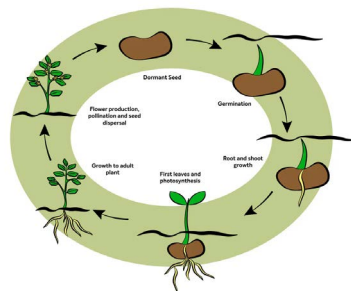

In English, we will be exploring the book *Poetree* by Shauna Lavoy Reynolds. We will develop our poetry skills by experimenting with rhyme, alliteration, onomatopoeia and repetition. We children will create Haikus, free verse poems and descriptive spring-themed pieces.

## Science

### Plants

We will deepen our understanding of what plants need to grow and stay healthy. We will investigate the key requirements for growth, explore the different methods of seed dispersal and learn about the stages in the life cycle of a plant, from germination to reproduction.

## Music

### Recorders

We will start developing recorder playing skills. We will learn the basics about recorders, including structure, sound and technique, and we will play pieces with B, A and G quaver notes.

## Geography

### Europe including Russia

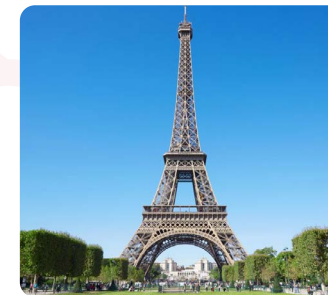

In Geography, we will be using maps to help us locate different countries of Europe and some of the physical features, including rivers and mountain ranges. We will also think about the different climates of the continent.

## Design Technology

### Structures

In DT we will explore 3D structures inspired by famous landmarks. We will develop practical skills such as cutting, scoring, assembling geometric shapes, and combining them to create more complex models.

## Religious Education

### Hinduism

We will explore a range of religious Hindu stories and reflect on the values they teach. We will learn about important Hindu festivals, the significance of prayer in daily life and how karma influences the choices and behaviour of Hindus.

## PSHE

### Relationships

We will explore relationships and building trust with your family and friends. We will be looking at when to keep information confidential and being responsible for our own safety, including online.

## Maths

### Fractions / Money / Time

We will add and subtract fractions; we shall also explore pounds and pence, adding and subtracting money and finding change; we shall also explore Roman numerals and tell the time to the nearest 5 minutes and exact minute.

## French

### Wild Animals

In French we shall be learning about wild animals, their physical features, eating habits and their habitat.

## Physical Education

### Handball / Athletics

We will be developing the skills and strategies for handball, including movement and quick decision making. In athletics we shall explore relay racing, jumping techniques and accuracy with long distance throwing.

# Year 3 Curriculum Summer 1

This half term our topic is: Celebrating Nature

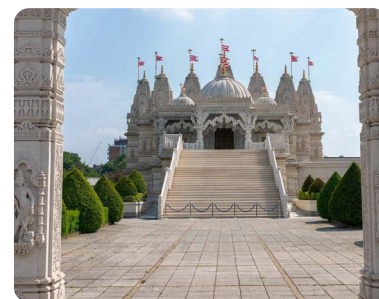

### Support your child at home:

Why not create an informative poster or booklet about the life cycle of a plant?

## Enrichment

### Hindu Temple

We shall be visiting Neasden Hindu Temple to enhance our learning about Hinduism in R.E.

## Computing

### Presentations

We be using online software to create presentations on a topic of our choice, thinking about how to present the content clearly using a range of graphics and narration.
